

Because the markets don't close when you're out of the office...

BD Vision Mobile

BD Vision Mobile delivers the same rich CRM experience as the BD Vision platform, with the real-time convenience of wireless access, increasing the productivity and efficiency of your staff on the move. BD Vision Mobile takes Capital Markets relationship management to the next level by combining remote access to the BD Vision platform with mobile communications.

Benefits at a glance:

- Increased productivity of your team with unrestricted, 24-hour access to the BD Vision platform
- Improved quality of the data you store in the BD platform
- More deals and better relationship management with critical account information always at your fingertips

Seamless Integration

- Send an email, call, and log an activity with a click of a button without having to leave the BD Vision Mobile application through native BlackBerry integration

Keep in Touch with Real-Time Alerts

- Respond instantly to opportunities by assigning call requests and sending real-time alerts to all members of your team

Manage Meetings

- Easily view your itinerary remotely
- Enter meeting feedback immediately after your meeting to improve the quality of the data you store

Instant Access to Customer Profiles

- Quickly search and view any of Ipreo's 100,000+ institutional contacts covering both Equity and Fixed Income investors
